HOWLIN'

Hello,

We are an Antwerp based knitwear brand. Since 1981 we have been producing quality knitwear in Scotland and in 2009 we launched our new label Howlin' (scottish slang for smelly). The way of manufacturing remains traditional but Howlin' offers more room for fantasy in shape and pattern.

At Howlin' we strive for timeless, playful products that are made with care. So whether it is a scarf or a shaggy waistcoat; all our products are individually manufactured and hand finished by traditionally skilled craftsmen in either Scotland or Ireland using the highest quality yarns possible.
